#### Resolution

A senior citizen pays a reduced fee for a small game and fishing license and a state park pass. The total reduction for these activities is thirty-two dollars.

I feel that the present fees for patron and sports license discourage seniors from buying either.

Like the young people, many older folks also have limited incomes.

Be it resolved that a senior patron license and a senior sports license be created.

The fees should be the same as the junior patron license and the junior sports license.
